

To Whom It may Concern,

I'm writing on behalf of K-LOVE Christian Music Radio Network currently broadcasted in my area on FM frequencies 91.5, 91.9 and 99.3, WRT the LPFM Stations taking priority over regular FM Networks IRT the Translator service.

To do this would be a great disservice to the people of my community as this is the only radio station I listen to where I don't have to worry about what my children may hear and is in keeping with my values and morals. The effect of removing this station from the local translator would be detrimental to the community it serves by leaving a large void in that can not be replace with any other programing currently suitable for the whole family. I believe the service currently provided by K-LOVE to this community is instrumental in revealing ways that assist me in raising my family through the numerous suggestions provided in addition to the very real concern this station has for our community.
